

# #IdentityInData

Visibility, voice and culture  
in data collection and use

**Craig Moss**

Research Manager

**SCOPE**

**=** Equality for  
disabled people

# Representation

## Context

- Historical framing of disability
- Language of disability - medical model v social model
- Inclusivity and homogeneity
- Visibility and inclusive design

# Coronavirus and beyond

## Issues at large and moving forward

- Vulnerability
- Data availability
- Data collection issues
- Conversations beginning

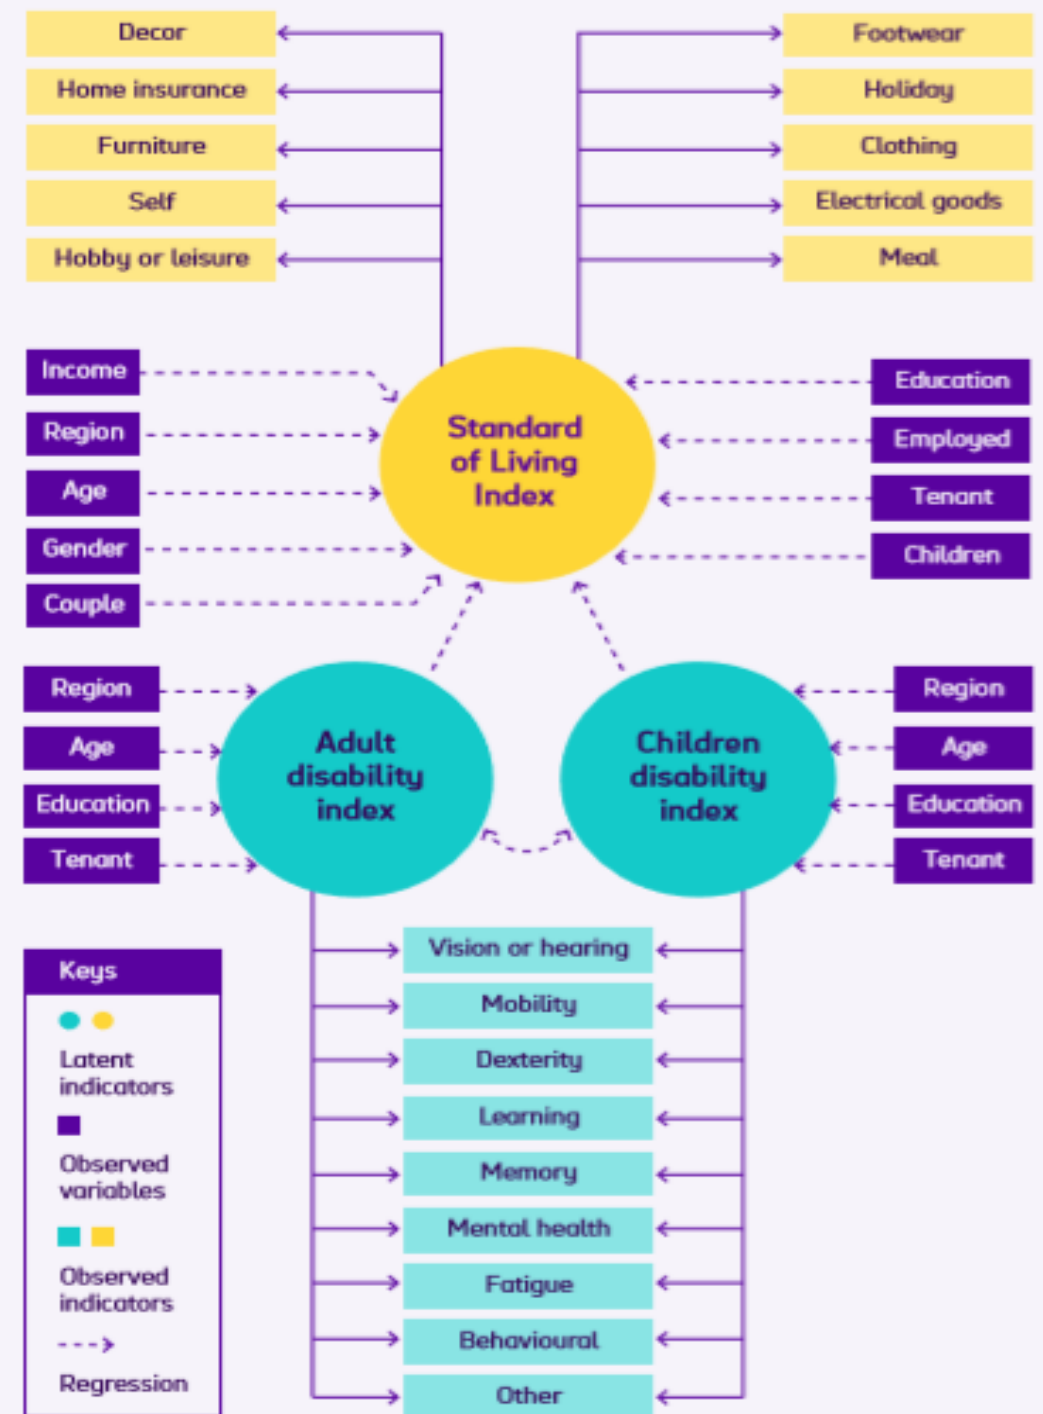

# Data to understand disability

## Scope research projects

- Disability Price Tag 2.0
- Disability Employment Gap puzzle
- The Big Hack: Digital and consumer inclusive design
- The Perception Gap (British Social Attitudes survey)
- Our lives, our journey longitudinal study

# Disability Price Tag 2.0

- On average, disabled adults face extra costs of **£583** a month related to their impairment or condition
- For one in five disabled people, extra costs amount to over £1,000 per month
- This is after taking into account welfare payments designed to help these costs
- On average, disabled adults face extra costs **equivalent to almost half of their income** (47 per cent)

# Coproduction

## Scope initiatives

- University of Sheffield iHuman 'YP Capital research project'
- Scope Coresearch Collective
- 'Reframe Representation' statistics project
